

EXIT

BETTER THAN PHYSICAL GOLD. HIGH REWARDS.

GODL TOKEN

1 TOKEN = VALUE OF 1 GRAM OF GOLD.

BTS is a rewards-based membership platform built around a token called GODL.

One token is equal to the value of 1 gram of gold, so when gold goes up, GODL goes up.

Unlike physical gold there's no storage costs, no insurance costs and no dealer markups.

You can buy GODL up to 10% below market value and sell it at the current market price after just 90 days.

On top of that, BTS pays referral rewards up to 10 levels deep.
